**Mila Resources Plc**  
**(“Mila” or “the Company”)**  
**Interim Results**

Mila Resources Plc, a London listed natural resources company, is pleased to present its interim results for the six-month period ended 31 December 2019.

**Highlights:**

- February 2020; the announcement of a non-binding Head of Terms with regards to the possible acquisition of 100% of the share capital of E-Tech Metals Ltd (‘E-Tech’). E-Tech is a private company developing projects in the critical and strategic metals industry and its primary asset is the high-grade Eureka Rare Earth Project in Namibia.
- Strong balance sheet position with cash balance at the end of the period £395,425 due to continuous prudent financial management.

**Chairman Statement**

I am pleased to present the interim financial statements to shareholders for the six months ended 31 December 2019.

The period under review was dominated by searching for a suitable reverse takeover candidate, culminating in the identification of E-Tech, whom hold the Eureka rare earth project in Namibia, which we believe is a highly interesting opportunity. We believe the project and its management will enable us to achieve the ambitions we have for Mila.

The current pandemic, although devastating to businesses globally, has not interrupted our plans to undertake a re-listing of the enlarged entity and the Company and its professional advisers are continuing with due diligence and preparing the documentation for the re-listing. Clearly, we will need to assess market conditions prior to raising any capital but it is very much our current intention to complete the transaction by the end of 2020.

The company has advanced £50,000 to E-Tech in the form of a secured loan which will assist with the reverse takeover transaction and enable E-Tech to further enhance their project.

I look forward to reporting our progress to you over the coming months.

## Financial Review

## Corporate Governance

The UK Corporate Governance Code (September 2014) (“the Code”), as appended to the Listing Rules, sets out the Principles of Good Corporate Governance and Code Provisions which are applicable to listed companies incorporated in the United Kingdom. As a standard listed company, the Company is not subject to the Code, but the Board recognises the value of applying the principles of the Code where appropriate and proportionate and has endeavoured to do so where practicable.

## Responsibility Statement

The Directors are responsible for preparing the Unaudited Interim Condensed Consolidated Financial Statements in accordance with the Disclosure and Transparency Rules of the United Kingdom’s Financial Conduct Authority (“DTR”) and with International Accounting Standard 34 on Interim Reporting (“IAS 34”). The directors confirm that, to the best of their knowledge, this condensed consolidated interim report has been prepared in accordance with IAS 34 as adopted by the European Union. The interim management report includes a fair review of the information required by DTR 4.2.7 and DTR 4.2.8, namely:

**MILA RESOURCES PLC**  
**Notes to the financial statements**  
**For the six months ended 31 December 2019**

**1 General information**

Mila Resources Plc (the “Company”) looks to identify potential companies, businesses or asset(s) that have operations in the natural resources exploration, development and production sector.

The Company is domiciled in the United Kingdom and incorporated and registered in England and Wales, with registration number 09620350.

The Company’s registered office is Lockstrood Farm, Ditchling Common, Burgess Hill, West Sussex RH15 0SJ.

**2 Accounting policies**

The principal accounting policies applied in preparation of these consolidated financial statements are set out below. These policies have been consistently applied unless otherwise stated.

*Basis of preparation*

The interim unaudited financial statements for the period ended 31 December 2019 have been prepared in accordance with IAS 34 Interim Financial Reporting. This interim financial information is not the Company’s statutory financial statements and should be read in conjunction with the annual financial statements for the period ended 30 June 2019, which have been prepared in accordance with International Financial Reporting Standards (IFRS) and have been delivered to the Registrars of Companies. The auditors have reported on those accounts; their report was unqualified, did not include references to any matters which the auditors drew attention by way of emphasis of matter without qualifying their report and did not contain statements under section 498 (2) or (3) of the Companies Act 2006.

The interim financial information for the six months ended 31 December 2019 is unaudited. In the opinion of the Directors, the interim consolidated financial information presents fairly the financial position, and results from operations and cash flows for the period.

The Directors have made an assessment of the Company’s ability to continue as a going concern and are satisfied that the Company has adequate resources to continue in operational existence for the foreseeable future. The Company, therefore, continues to adopt the going concern basis in preparing its consolidated financial statements.

The financial information of the Company is presented in British Pounds Sterling (£).

*Critical accounting estimates and judgements*

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and the reported amounts of income and expenses during the reporting period. Although these estimates are based on management’s best knowledge of current events and actions, the resulting accounting estimates will, by definition, seldom equal related actual results.

In preparing the interim financial information, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 30 June 2019.

### 3 Income tax expense

No tax is applicable to the Company for the six months ended 31 December 2019. No deferred income tax asset has been recognised in respect of the losses carried forward, due to the uncertainty as to whether the Company will generate sufficient future profits in the foreseeable future to prudently justify this.
